AQHA HEALTH PANEL TESTING

Genes come in pairs; each parent contributes one copy to the offspring. With respect to the autosomal dominant genetic diseases listed below (HYPP, PSSM, and MH) only one defective gene is necessary to express the genetic disease in question. Such gene can be inherited from either of the parents or from both parents. With respect to autosomal recessive genetic diseases listed below (GBED and HERDA), typically, two copies of an abnormal gene (two copies = 1 pair) must be present for the horse to show signs of the genetic defect in question. Horses with only one copy of the defective gene are considered “carriers”.

GBED – Glycogen Branching Enzyme Deficiency. Fatal disease of newborn foals caused by defect in glycogen storage. Affects heart and skeletal muscles and brain. Inherited as a recessive gene.

Possible results:

N/N	Normal – horse does not possess the disease-causing GBED gene.
N/G	Carrier – Heterozygous (one normal and one GBED gene).
G/G	Affected – horse has two copies of the GBED gene.

HERDA – Hereditary Equine Regional Dermal Asthenia. Skin disease characterized by hyperextensible skin, scarring, and severe lesions along the back of affected horses. Typical onset is around 2 years of age. Inherited as a recessive disease.

Possible results:

N/N	Normal – horse does not have the HERDA gene.
N/HRD	Carrier – horse carries one copy of the HERDA gene.
HRD/HRD	Affected – horse has two copies of the HERDA gene.

HYPP – Hyperkalemic Periodic Paralysis. Muscle disease caused by defect in sodium channel gene that causes involuntary muscle contraction and increased level of potassium in blood. Inherited as a dominant disease. Two copies of the defective gene produce more severe signs than one copy.

Possible results:

N/N	Normal – horse does not possess the disease-causing HYPP gene.
N/H	Hyperkalemic – Heterozygous (one normal and one HYPP gene).
H/H	Affected – horse has two copies of the HYPP gene.

MH – Malignant Hyperthermia. Rare but life-threatening skeletal muscle disease triggered by exposure to volatile anesthetics (halothane), depolarizing muscle relaxants (succinylcholine), and stress. Presumed inheritance as a dominant disease.

Possible results:

N/N	Normal – horse does not have the MH gene.
N/MH	Affected – horse has one copy of the MH gene.
MH/MH	Affected – horse has two copies of the MH gene.

PSSM1 – Polysaccharide Storage Myopathy Type 1. Muscle disease characterized by accumulation of abnormal complex sugars in skeletal muscles. Signs include muscle pain, stiffness, skin twitching, sweating, weakness, and reluctance to move. Inherited as a dominant disease.

Possible results:

N/N	Normal – horse does not have the PSSM1 gene.
N/PSSM1	Affected – horse has one copy of the PSSM1 gene.
PSSM1/PSSM1	Affected – horse has two copies of the PSSM1 gene.

Upon any such return, the owner will owe Western Bloodstock LTD dba Triangle Sales the sale expenses and sale commission (8%) or \$1,000.00, whichever is greater, and the cost of all veterinary services performed. All arrangements and expenses to return the horse are solely those of the owner.

It is the intent of Western Bloodstock LTD dba Triangle Sales to make every effort to record the entire auction which shall be used to settle disputes regarding statements made about horses while in the auction arena. In the event of disputes, the final veterinary examination and recording will be used to settle said dispute.

10 BIDDING PROCESS, DISPUTES, MALFUNCTIONS

The Auctioneer reserves the right to reject all bids. Should any dispute arise between two or more bidders, the Auctioneer shall settle said dispute and that decision shall be absolute, final, and binding on all parties. BIDS RECEIVED AFTER THE FALL OF THE AUCTIONEER'S GAVEL ARE NOT GROUNDS FOR DISPUTE.

If there is no advanced bid, the horse shall be sold to the bidder from whom the Auctioneer recognized the final bid. If the bid should be reduced below the disputed bid, the Auctioneer may re-open the bidding with the highest bidder becoming the buyer regardless of whether the final bid equals or exceeds the original disputed bid.

Any buyer who makes a winning bid and signs (or so authorizes the signing of) the Buyers Acknowledgement of Purchase and Security Agreement is responsible for that purchase and cannot assign new ownership to a second party unless approved by Western Bloodstock LTD dba Triangle Sales. In the event a clerical mistake is made regarding the written entry of the final bid on the Buyers Acknowledgement of Purchase and Security Agreement, that correction will be made with no liability to Western Bloodstock LTD dba Triangle Sales. All disputes regarding final bids shall be settled by Auctioneer and/or sale recording.

13 RESALES

		{ Miss April Honey

NOTES: "TC" is a very unique colored beautiful roan gelding. He stands 15.1 hands tall, is stout and correct. An outstanding horse that we have really enjoyed having in our program. He is a very solid head horse, scores like a rock, leaves hard, runs flat, has a lot of cow and rate, with a nice move from the corner and has a great face to finish the run. You can run 40 a day and he doesn't get hot and stays the same. Has been hauled to a lot of ropings for his age. Eligible for the rope horse futurities, he is mature far beyond his age in the arena and out in the pasture and trails. This gentle gelding does not get fresh, is very broke and is a super fun horse to ride for any activity. If you're looking for a ranch or trail horse this guy will definitely fit the bill. He's in the prime of his life, sound, gentle and has no vices. Will be shown in the roping preview.

We have been riding this horse for the past year. He can really run and is strong to the horn. We have just started hauling him on the head side and we think he has a very bright future. Have also used him outside this past fall and helped several ranches wean their calves. We took him to Arizona this winter as well. If you are looking for a horse that is bred extremely well and that is the full package look no further. Will be shown in the roping preview. GBED N/N, HERDA N/HRD, HYPP N/N, MH N/N, PSSM 1 N/N.

NOTES: Here is a solid, good looking, head horse that the whole family can get along with. "Tex" is that rare unicorn that you can put the kids on to babysit and then go win a high numbered roping the same day. Has won money at both high and low numbered ropings, he scores great, runs hard and has a big move in the corner. He's also been heeled on and does well. This gelding has had a day job and done a lot of ranching and outside work, including gathering cattle in big country, sorting, dragging calves and big cattle in the trailer. Laid back, super friendly, doesn't get upset and has a great work ethic. Easy to be around, will meet you at the gate, no need to trick him with a feed bucket he comes to a whistle, and you can catch him anywhere. A true gentleman that aims to please, he has never bucked or done anything silly his whole life. You can lay him off for months, saddle up and he'll walk off like he's been used every day. Only reason this horse is for sale is I've got too many young ones. He's the nicest horse I've ever had, and 100% sound and sane. Will be shown in the roping preview.

NOTES: This is an 8-year-old, jaw dropping head and heel horse. He checks all the boxes - pedigree, conformation, size, looks and disposition. He has all the cow and eye appeal you can ask for. He has a reining handle, an excellent turnaround, lopes good circles, lead changes and a big stop. A bomb proof gelding that is super sweet and everyone gets along with, your kids will love him. Scores excellent on both sides, very good minded. On the head side comes out flat and runs to a good spot, rates off, lets you take your time, pulls like a tractor and faces well. On the heeling and breakaway side, he'll ease out of the corner real nice and let you have a shot, he smoothly tracks the steer until you're ready to rope and will drag his butt. Been hauled all around the country and won at every level. Guaranteed to fit you and let you win on either side, they don't get better or fancier than him. Stands at 14.3 hands.

RADIOGRAPH REPOSITORY

Triangle Sales encourages owners to keep radiographs in their possession for use as they see fit. Owners are also encouraged to secure from the examining veterinarian an evaluation by grading the overall condition of the horse as:

- a) Acceptable
- b) Manageable
- c) Guarded

Additionally, an online radiograph repository (the “repository”) is available for the use of the owners and buyers. Any radiographs voluntarily submitted to Asteris Keystone Community will be available for viewing online by a buyer’s veterinarian prior to the horse selling.

Western Bloodstock dba Triangle Sales will not review radiographs prior to the sale of the horse; makes no representations or warranties of any kind concerning the authenticity, sufficiency, quality, completeness, or accuracy of the radiographs (all of which are the responsibility of the owner); and is not responsible or liable for any error, claim or damage as a result of the buyer’s use or reliance on the radiographs.

All images submitted to the repository are the property of the owner.

OWNERS RADIOGRAPH REPOSITORY TERMS

Participating owners, bidders, buyers and veterinarians agree to the following terms:

All radiographs must be taken within 60 days of the first sale session and must be submitted no later than 5:00 pm CST, 2 days before the first sale session.

Label for the Studies:

Hip Number (as it is in the catalog), Sire, Dam and Owner (consignor as listed in the catalog)

Any radiographs received that do not clearly describe the horse, owner, veterinarian, and date will be discarded.

Owners will be held responsible for associating radiographs with the horse(s). If the horse’s name is changed in the radiographs knowingly or unknowingly, or if the images have been tampered with, the owner is responsible for any charges and/or damages incurred from a dispute.

Neither Asteris Keystone Community nor Western Bloodstock dba Triangle Sales will be reviewing or screening images for positioning or technique. This is the responsibility of the submitting veterinarian at the time of acquisition.
