

May 12, 2020

Continued restrictions in the state of Oklahoma, OKC and at the Oklahoma State Fair Park have made it impossible to proceed with a mid-year Triangle Sale in 2020. Requirements such as limiting the number of attendees, temperature checks, masks and social distancing just make it against my better judgement to attempt the production of a live auction right now.

I was literally raised in the livestock marketing business and attended Col. Ike Hamilton's Superior School Of Auctioneering in 1975, the same year I graduated from high school. I have never had to cancel, postpone or reschedule a sale and it pains me greatly to do so. However, the COVID-19 outbreak is much bigger than any one of us could have dreamed at its onset and it has caused us all to do things we never imagined.

With that said, all of us associated with Triangle are looking to the future and to possibly the best new sale opportunity to come along in years. Therefore, I invite you to:

THE 41<sup>ST</sup> TRIANGLE FALL SALE  
AT THE AQHA WORLD CHAMPIONSHIP SHOW  
OK STATE FAIR PARK • OKC  
November 6 & 7  
Nominations Due: September 18

**AQHA HAS INCORPORATED MOST OF ITS COW-RELATED AND BARREL CLASSES INTO THE FIRST WEEK OF THE WORLD SHOW.** The horses showing at that time are the exact types of horses that Triangle and our customers are famous for. Trained cutting and cow horses, reiners, ranch horses, roping horses, barrel horses and family-type horses for enjoyment will be in demand. The same loud colored horses Triangle has sold so successfully will also be hot. Whether you have trained horses, breeding stock or prospects...we will be glad to sell horses for you in the fall.

**AQHA HAS ALSO DISCONTINUED ANY PREQUALIFICATION FOR THIS YEAR'S SHOW SO IF HEALTH CONDITIONS ALLOW, THERE SHOULD BE A HUGE CROWD OF HORSEMEN WITH THE SAME INTERESTS TOGETHER IN OKC FOR THIS EVENT.**

When we return to some type of normalcy, Triangle will be here to serve you. In the meantime, don't hesitate to call me personally if I can answer any questions or help you with any of your future horse plans.

*Jim Ware*
