GENETIC TESTING

DRAW SYSTEM FOR HIP NUMBERS

A random computer draw system is used to assign hip numbers.

When multiple horses with the same owner are drawn back- to-back, horses may be moved forward or backward ten lots in the order. Hip numbers for special productions/dispersals within a sale is determined by or on behalf of the owner.

AQHA HEALTH PANEL TESTING

Genes come in pairs; each parent contributes one copy to the offspring. With respect to the autosomal dominant genetic diseases listed below (HYPP, PSSM, and MH) only one defective gene is necessary to express the genetic disease in question. Such gene can be inherited from either of the parents or from both parents. With respect to autosomal recessive genetic diseases listed below (GBED and HERDA), typically, two copies of an abnormal gene (two copies = 1 pair) must be present for the horse to show signs of the genetic defect in question. Horses with only one copy of the defective gene are considered “carriers”.

GBED – Glycogen Branching Enzyme Deficiency. Fatal disease of newborn foals caused by defect in glycogen storage. Affects heart and skeletal muscles and brain. Inherited as a recessive gene.

Possible results:

| | |
|-----|--|
| N/N | Normal – horse does not possess the disease-causing GBED gene. |
| N/G | Carrier – Heterozygous (one normal and one GBED gene). |
| G/G | Affected – horse has two copies of the GBED gene. |

HERDA – Hereditary Equine Regional Dermal Asthenia. Skin disease characterized by hyperextensible skin, scarring, and severe lesions along the back of affected horses. Typical onset is around 2 years of age. Inherited as a recessive disease.

Possible results:

| | |
|---------|---|
| N/N | Normal – horse does not have the HERDA gene. |
| N/HRD | Carrier – horse carries one copy of the HERDA gene. |
| HRD/HRD | Affected – horse has two copies of the HERDA gene. |

HYPP – Hyperkalemic Periodic Paralysis. Muscle disease caused by defect in sodium channel gene that causes involuntary muscle contraction and increased level of potassium in blood. Inherited as a dominant disease. Two copies of the defective gene produce more severe signs than one copy.

Possible results:

| | |
|-----|--|
| N/N | Normal – horse does not possess the disease-causing HYPP gene. |
| N/H | Hyperkalemic – Heterozygous (one normal and one HYPP gene). |
| H/H | Affected – horse has two copies of the HYPP gene. |

MH – Malignant Hyperthermia. Rare but life-threatening skeletal muscle disease triggered by exposure to volatile anesthetics (halothane), depolarizing muscle relaxants (succinylcholine), and stress. Presumed inheritance as a dominant disease.

Possible results:

| | |
|-------|---|
| N/N | Normal – horse does not have the MH gene. |
| N/MH | Affected – horse has one copy of the MH gene. |
| MH/MH | Affected – horse has two copies of the MH gene. |

PSSM1 – Polysaccharide Storage Myopathy Type 1. Muscle disease characterized by accumulation of abnormal complex sugars in skeletal muscles. Signs include muscle pain, stiffness, skin twitching, sweating, weakness, and reluctance to move. Inherited as a dominant disease.

Possible results:

| | |
|-------------|--|
| N/N | Normal – horse does not have the PSSM1 gene. |
| N/PSSM1 | Affected – horse has one copy of the PSSM1 gene. |
| PSSM1/PSSM1 | Affected – horse has two copies of the PSSM1 gene. |

Upon any such return, the owner will owe Western Bloodstock LTD dba Triangle Sales the sale expenses and sale commission (8%) or \$1,000.00, whichever is greater, and the cost of all veterinary services performed. All arrangements and expenses to return the horse are solely those of the owner.

If the horse is found by the second veterinarian to not have the alleged issue or defect, the sale of said horse is valid and enforceable and the buyer assumes all costs associated including veterinary services.

It is the intent of Western Bloodstock LTD dba Triangle Sales to make every effort to record the entire auction which shall be used to settle disputes regarding statements made about horses while in the auction arena. In the event of disputes, the final veterinary examination and recording will be used to settle said dispute.

8 UPSET BID

Unless waived by announcement, there shall be a minimum "upset (starting) bid" of \$1,000.00 for any horse presented for sale. If the "upset (starting) bid" is not received, the horse shall be automatically considered withdrawn by the owner as unsold, and all expenses become due by owner to Western Bloodstock LTD dba Triangle Sales. - a. be the final bidder and sign the Buyers Acknowledgement of Purchase and Security Agreement OR
- b. deliver a completed official reserve bid form to Western Bloodstock LTD dba Triangle Sales, (either in the sale office or at the auction block with assistance of a sale staff member) prior to the sale of the horse OR

Western Bloodstock LTD dba Triangle Sales reserves the right to bid on the behalf of the owner up to the amount of the reserve bid. If the owner or its representative makes a final bid equal to or greater than the reserve, owner will pay the 8% sale commission due.

10 BIDDING PROCESS, DISPUTES, MALFUNCTIONS

The Auctioneer reserves the right to reject all bids. Should any dispute arise between two or more bidders, the Auctioneer shall settle said dispute and that decision shall be absolute, final, and binding on all parties. BIDS RECEIVED AFTER THE FALL OF THE AUCTIONEER'S GAVEL ARE NOT GROUNDS FOR DISPUTE.

In case two or more bidders claim the final bid, the Auctioneer may re-open the bidding procedure and ask for advanced bids, solely between the bidders having claimed the last bid. If there is no advanced bid, the horse shall be sold to the bidder from whom the Auctioneer recognized the final bid. If the bid should be reduced below the disputed bid, the Auctioneer may re-open the bidding with the highest bidder becoming the buyer regardless of whether the final bid equals or exceeds the original disputed bid.

In the event of known equipment malfunction, the auction will be stopped. If the malfunction has not affected the sale of horses sold prior to the malfunction, they will be considered sold. The auction will proceed upon correction of the malfunction.

Title transfers immediately to the buyer at the final fall of the Auctioneer's gavel. Title transfer includes all risk of loss including but not limited to illness, injury, or death of the horse. Additionally, at title transfer, the buyer assumes all responsibility for the care and maintenance of the horse, for any loss or damage to property and for injury or death of persons caused by the horse, buyer, or buyer's employees. Additionally, buyer agrees to hold harmless Western Bloodstock LTD dba Triangle Sales for such loss or damage. After making a winning bid on a horse, a Buyers Acknowledgement of Purchase and Security Agreement will be completed by the buyer (or on behalf of the registered phone/online bidder) that will confirm the hip number and final sale price for invoicing and transfer. Any buyer who makes a winning bid and signs (or so authorizes the signing of) the Buyers Acknowledgement of Purchase and Security Agreement is responsible for that purchase and cannot assign new ownership to a second party unless approved by Western Bloodstock LTD dba Triangle Sales. In the event a clerical mistake is made regarding the written entry of the final bid on the Buyers Acknowledgement of Purchase and Security Agreement, that correction will be made with no liability to Western Bloodstock LTD dba Triangle Sales. All disputes regarding final bids shall be settled by Auctioneer and/or sale recording.

13 RESALES

If the highest bidder fails to immediately execute the Buyers Acknowledgement Of Purchase And Security Agreement or otherwise fails to comply with these terms or in the event of an announced mistake by the Auctioneer, Western Bloodstock LTD dba Triangle Sales reserves the right to accept the same purchase amount from another buyer, accept the next highest bid, put the horse up for sale a second time, or retain the horse for the owner as unsold. However, nothing shall prevent Western Bloodstock LTD dba Triangle Sales and/or the owner from pursuing whatever legal remedy may be available to compel the original buyer to perform as set out herein.

VF Antonella

Canclito

Poseida

NOTES: VF ANTONELLA is a 5-year-old Fernandez breed mare. The Fernandez breed was created by the famous Mexican singer Vicente Fernandez, one of Mexico's most renowned artists and great enthusiasts of horses and charrería, Mexico's national sport. One of the main characteristics of this breed is its size; these horses range from 11.8 to 12.8 hands. Despite their small stature, they have enough strength to be ridden by anyone. They are docile, intelligent and highly skilled. "Antonella" stands 12.3 hands tall, has a beautiful gray coat and is fully trained in charrería. She is a finished mare ready for competition. Charrería consists of 9 different events, one of which is called "Cala." This event is similar to reining, as it includes movements such as "Punta" (running full speed and sliding to a stop on the hind legs). "Lados" (fast spin in one direction while keeping the inside hind leg fixed). Backing Up (walking backward with precision). "Antonella" is an exceptional mare, demonstrating great ability, temperament and versatility. A true "charro-trained" horse.

NOTES: VF BABY FACE is a 9-year-old Fernandez breed horse. The Fernandez breed was created by the famous Mexican singer Vicente Fernandez, one of Mexico's most renowned artists and great enthusiasts of horses and charrería, Mexico's national sport. One of the main characteristics of this breed is its size; these horses range from 11.8 to 12.8 hands. Despite their small stature, they have enough strength to be ridden by anyone. They are docile, intelligent and highly skilled. "Baby Face" stands 12.4 hands tall, has a beautiful blue roan coat and is fully trained in charrería. He is a finished horse ready for competition. Charrería consists of 9 different events, one of which is called "Cala." This event is similar to reining, as it includes movements such as "Punta" (running full speed and sliding to a stop on the hind legs). "Lados" (fast spin in one direction while keeping the inside hind leg fixed). Backing Up (walking backward with precision). "Baby Face" is an exceptional horse, demonstrating great ability, temperament and versatility. A true "charro-trained" horse.

NOTES: VF GERONIMO is a 5-year-old Fernandez breed horse. The Fernandez breed was created by the famous Mexican singer Vicente Fernandez, one of Mexico's most renowned artists and great enthusiasts of horses and charrería, Mexico's national sport. One of the main characteristics of this breed is its size; these horses range from 11.8 to 12.8 hands. Despite their small stature, they have enough strength to be ridden by anyone. They are docile, intelligent and highly skilled. "Geronimo" stands 12.5 hands tall and is fully trained in charrería. He is a finished horse ready for competition. Charrería consists of 9 different events, one of which is called "Cala." This event is similar to reining, as it includes movements such as "Punta" (running full speed and sliding to a stop on the hind legs), "Lados" (fast spin in one direction while keeping the inside hind leg fixed), Backing Up (walking backward with precision). "Geronimo" is an exceptional horse, demonstrating great ability, temperament and versatility. A true "charro-trained" horse.

NOTES: VF OREO is a 3-year-old Fernandez breed horse. The Fernandez breed was created by the famous Mexican singer Vicente Fernandez, one of Mexico's most renowned artists and great enthusiasts of horses and charrería, Mexico's national sport. One of the main characteristics of this breed is its size; these horses range from 11.8 to 12.8 hands. Despite their small stature, they have enough strength to be ridden by anyone. They are docile, intelligent and highly skilled. "Oreo" is highly advanced in "charro-style" training. Charrería consists of 9 different events, one of which is called "Cala." This event is similar to reining, as it includes movements such as "Punta" (running full speed and sliding to a stop on the hind legs). "Lados" (fast spin in one direction while keeping the inside hind leg fixed). Backing Up (walking backward with precision). "Oreo" is an exceptional horse, demonstrating great ability, temperament and versatility.

NOTES: VF SILVER is a 6-year-old Fernandez breed horse. The Fernandez breed was created by the famous Mexican singer Vicente Fernandez, one of Mexico's most renowned artists and great enthusiasts of horses and charrería, Mexico's national sport. One of the main characteristics of this breed is its size; these horses range from 11.8 to 12.8 hands. Despite their small stature, they have enough strength to be ridden by anyone. They are docile, intelligent and highly skilled. "Silver" stands 12 hands tall and is fully trained in charrería. He is a finished horse ready for competition. Charrería consists of 9 different events, one of which is called "Cala." This event is similar to reining, as it includes movements such as "Punta" (running full speed and sliding to a stop on the hind legs). "Lados" (fast spin in one direction while keeping the inside hind leg fixed). Backing Up (walking backward with precision). "Silver" is an exceptional horse, demonstrating great ability, temperament and versatility. A true "charro-trained" horse.

NOTES: VF VINCENT is a 6-year-old Fernandez bred horse. The Fernandez breed was created by the famous Mexican singer Vicente Fernandez, one of Mexico's most renowned artists and great enthusiasts of horses and charrería, Mexico's national sport. One of the main characteristics of this breed is its size; these horses range from 11.8 to 12.8 hands. Despite their small stature, they have enough strength to be ridden by anyone. They are docile, intelligent and highly skilled. "Vincent" stands 12.8 hands tall, has a beautiful red roan coat and is fully trained in charrería. He is a finished horse ready for competition. Charrería consists of 9 different events, one of which is called "Cala." This event is similar to reining, as it includes movements such as "Punta" (running full speed and sliding to a stop on the hind legs). "Lados" (fast spin in one direction while keeping the inside hind leg fixed). Backing Up (walking backward with precision). "Vincent" is an exceptional horse, demonstrating great ability, temperament and versatility. A true "charro-trained" horse.

RADIOGRAPH REPOSITORY

Triangle Sales encourages owners to keep radiographs in their possession for use as they see fit. Owners are also encouraged to secure from the examining veterinarian an evaluation by grading the overall condition of the horse as:

- a) Acceptable
- b) Manageable
- c) Guarded

Additionally, an online radiograph repository (the “repository”) is available for the use of the owners and buyers. Any radiographs voluntarily submitted to Asteris Keystone Community will be available for viewing online by a buyer’s veterinarian prior to the horse selling.

Western Bloodstock dba Triangle Sales will not review radiographs prior to the sale of the horse; makes no representations or warranties of any kind concerning the authenticity, sufficiency, quality, completeness, or accuracy of the radiographs (all of which are the responsibility of the owner); and is not responsible or liable for any error, claim or damage as a result of the buyer’s use or reliance on the radiographs.

All images submitted to the repository are the property of the owner.

OWNERS RADIOGRAPH REPOSITORY TERMS

Participating owners, bidders, buyers and veterinarians agree to the following terms:

All radiographs must be taken within 60 days of the first sale session and must be submitted no later than 5:00 pm CST, 2 days before the first sale session.

Label for the Studies:

Hip Number (as it is in the catalog), Sire, Dam and Owner (consignor as listed in the catalog)

Any radiographs received that do not clearly describe the horse, owner, veterinarian, and date will be discarded.

Owners will be held responsible for associating radiographs with the horse(s). If the horse’s name is changed in the radiographs knowingly or unknowingly, or if the images have been tampered with, the owner is responsible for any charges and/or damages incurred from a dispute.

Neither Asteris Keystone Community nor Western Bloodstock dba Triangle Sales will be reviewing or screening images for positioning or technique. This is the responsibility of the submitting veterinarian at the time of acquisition.

Catalog Produced by Dena Milner and the QData Catalog Builder™

Catalog information herein contained has been compiled by Robin Glenn Pedigrees' automated QData Catalog Builder system and Western Bloodstock dba Triangle Sales (the Sale Company) from information furnished by, but not limited to, the following: the QData Database, the American Quarter Horse Association, the American Paint Horse Association, the National Cutting Horse Association, American Cutting Horse Association, National Reining Horse Association, National Reined Cowhorse Association, National Stock Horse Association, National Snaffle Bit Association, Equi-Stat, Palomino Horse Breeders of America, Appaloosa Horse Club and other organizations; foreign breed & event associations and the Jockey Club Information System, as well as published public show results. Some dollar figures may be approximate. With the multiple processing of complex data and reliance upon information acquired from multiple sources, errors and omissions can and do occur despite reasonable commercial efforts to avoid them. The QData Database is not an official outlet for any organization, but merely compiles the information into one resource. Please note that the seller is sole guarantor of all such information. AQHA, Sales Management and/or the above listed associations will not be held responsible for errors, but would appreciate their being called to its attention **upon immediate receipt of catalog**, and may be contacted at Western Bloodstock dba Triangle Sales, office@trianglehorsesales.net.

DOUBLE REGISTERED HORSES: Neither QData nor Sale Company has any way of knowing when a horse has been double-registered in two breed registries. Although considerable effort is made to determine this, neither QData nor the Sale Company will be held responsible for the knowledge or inclusion of this information.

RECENT SHOW RESULTS:

In an effort to produce pedigrees as current as is possible, QData may obtain show results and earnings from preliminary results, which may not be official at time of catalog printing. Therefore, **those placings and earnings could change**, once show results have been finalized by the show management &/or association.
